

Alzheimer's Disease and Related Disorders
Research Grant Recipients
1985 - 2016

Caregiving	Principal Investigator	Organization	Period of Funding	Amount of Award
1 Long-term impact of family caregiving	Carol S. Aneshensel, Ph.D.	University of California, Los Angeles	January 1, 1999 - June 30, 2001	\$148,500.00
Analysis of caregiver-report in dementia: Focus on Caregiver-clinician discrepancy	Matthew A. Battista, Ph.D.			
2 Dementia care management intervention: The most effective components		University of California, San Francisco/Fresno	January 1, 1999 - June 30, 2000	\$26,000.00
3 Away from home: A study of pre- and post-placement family caregiving for individuals with AD and related disorders	Joshua Chodosh, M.D., MSHSA	University of California, Los Angeles	January 1, 2008 - December 31, 2009	\$142,800.00
4 Family caregivers and consumer choice: Options for in-home respite care	Lynn Friss Feinberg, M.S.W.	Family Caregiver Alliance (formerly Family Survival Project)	December 1, 1992 - November 30, 1994	\$80,200.00
5 Health care costs in the last year of life: Does the type of dementia care make a difference?	Lynn Friss Feinberg, M.S.W.	Family Caregiver Alliance	October 1, 1995 - September 30, 1996	\$49,700.00
6 Cost-differentials of specialized versus nonspecialized long-term care facilities for dementia patients	Patrick Fox, Ph.D.	University of California, San Francisco	October 1, 1995 - September 30, 1997	\$150,000.00
7 The role of dysfunctional beliefs in caregiver stress	William Jagust, M.D. and David Lindeman, Ph.D.	University of California, Davis	November 1, 1989 - October 31, 1992	\$145,100.00
8 Reducing caregiver stress; physical and emotional effects	Bryan Kemp, Ph.D.	Los Amigos Research and Education Institute	December 1, 1992 - November 30, 1994	\$136,800.00
9 Safety of demented people: Evaluation by family caregivers and professionals	Bob Knight, Ph.D.	University of Southern California	November 1, 1989 - October 31, 1992	\$146,950.00
10 Abuse of elders with dementia: Toward a model of prediction	Linda S. Mitteness, Ph.D.	University of California, San Francisco	December 1, 1992 - November 30, 1994	\$139,475.00
11 AD, Latino caregivers and the social construction of moral obligation	Laura Mosqueda, M.D.	University of California, Irvine	July 1, 2004 - June 30, 2007	\$473,900.00
12 Alzheimer's home assessment project	Celia J. Orona, Ph.D.	San Jose State University	January 1, 1991 - December 31, 1992	\$84,475.00
13 Evaluating the home environment of the Alzheimer's patients	Jon Pynoos, Ph.D.	University of Southern California	June 1, 1987 - December 31, 1988	\$48,000.00
14 The Presence Care Project: Proving the effectiveness of a new type of mindfulness-based dementia care training for caregivers in long term care facilities	Joe W. Ramsdell, M.D.	University of California, San Diego	November 1, 1989 - October 31, 1992	\$137,500.00
	Leslie Ross, Ph.D.	University of California, San Francisco	July 1, 2013 - June 30, 2015	\$234,060.00
Basic Science	Principal Investigator	Organization	Period of Funding	Amount of Award
16 Clinical profiles in dementia	D. Frank Benson, M.D.	University of California, Los Angeles	January 1, 1987 - December 31, 1987	\$27,500.00
17 Distribution of amyloid in senile plaques in Alzheimer's disease	William Bondareff, Ph.D., M.D.	University of Southern California	November 1, 1989 - October 31, 1990	\$41,600.00
18 The Role of the p75 death domain in Alzheimer's disease	Dale E. Bredesen, Ph.D.	La Jolla Cancer Research Foundation	October 1, 1995 - September 30, 1998	\$217,800.00
19 Aβ oligomeric species and synaptic dysfunction in AD	Jorge A. Busciglio, Ph.D.	University of California, Irvine	January 1, 2008 - December 31, 2011	\$239,400.00
20 Mineral element interrelationships in Alzheimer's disease	Edith Carlisle, Ph.D.	University of California, Los Angeles	November 1, 1989 - April 30, 1992	\$71,400.00
21 Determinants and consequences of white matter degeneration in AD	Owen Carmichael, M.D.	University of California, Davis	July 1, 2013 - June 30, 2016	\$468,132.00
22 Variation of neuropathology along the longitudinal axis of the hippocampus associated with the progression of AD	Fen-Lei Chang, M.D.	University of California, San Francisco	October 1, 1995 - September 30, 1997	\$73,200.00
23 Amyloid B-protein precursor metabolism in brain and in vitro	Gregory M. Cole, Ph.D.	University of California, San Diego	November 1, 1989 - October 31, 1992	\$147,900.00
24 Metabolism of amyloid precursor in brain and in culture	Gregory M. Cole, Ph.D.	University of California, San Diego / Los Angeles	December 1, 1992 - November 30, 1994	\$142,500.00
25 The transport of acetylcholine into synaptic vesicles	Robert H. Edwards, M.D.	University of California, Los Angeles	December 1, 1992 - November 30, 1993	\$213,750.00
26 Nerve growth factor signal transduction: "Slow" receptor purification and cloning	Stuart C. Feinstein, Ph.D.	University of California, Santa Barbara	December 1, 1990 - November 30, 1992	\$98,000.00
27 Alzheimer's disease and post translation modification: Complementary utilization of an in vitro biochemical assay and a potential cell culture model to assess tau function and dysfunction		University of California, Santa Barbara		
28 Tau isoform expression in single cells: The AD milieu	Stuart C. Feinstein, Ph.D.	University of California, Santa Barbara	December 1, 1992 - November 30, 1994	\$142,500.00
29 Aβ Tau Phosphorylation and Molecular Mechanisms Underlying Neuronal Cell Death in AD and related dementias	Stuart Feinstein, Ph.D.	University of California, Santa Barbara	January 1, 1999 - December 2001	\$225,000.00
30 Comparison of rate of progression of Alzheimer's disease in subjects with early and late age onset	Stuart Feinstein, Ph.D.	University of California, Santa Barbara	January 1, 2008 - December 2011	\$240,000.00
31 Amyloid beta-protein catabolism in vitro and in vivo: The pathological mechanisms of sporadic Alzheimer's disease	Patrick Fox, Ph.D.	University of California, San Francisco	November 1, 1989 - November 30, 1992	\$148,000.00
32 Behavioral, physiological and anatomical investigations of neural transplants into the brains of aged rats	Sally A. Frautschy, Ph.D.	University of California, Los Angeles	January 1, 1999 - December 31, 2001	\$225,000.00
33 Protective effects of cathepsin B against neuronal and behavioral deficits in AD	Fred H. Gage, Ph.D.	University of California, San Diego	January 1, 1987 - December 31, 1988	\$94,000.00
Long-term potentiation: Cellular mechanisms and role in learning and memory	Li Gan, Ph.D.	The J. David Gladstone Institutes	July 1, 2008 - December 31, 2011	\$240,000.00
34 A longitudinal study of primary progressive aphasia	David L. Glanzman, Ph.D.	University of California, Los Angeles	October 1, 1995 - September 30, 1998	\$225,000.00
35 Brain-derived neurotrophic factor (BDNF) in Alzheimer's disease	Maria Luisa Gorno Tempini, M.D., Ph.D.	University of California, San Francisco	July 1, 2004 - June 30, 2007	\$240,000.00
36 Exploring the role of β/A4-amyloid in neurodegeneration with transgenic and trisomy 16 mice	Franz F. Hefti, Ph.D.	University of Southern California	December 1, 1990 - November 30, 1992	\$98,000.00
37 Characterization of Prp in inherited prion diseases	David M. Holtzman, M.D.	University of California, San Francisco	December 1, 1992 - November 30, 1994	\$142,500.00
	Karen Hsiao, M.D., Ph.D.	University of California, San Francisco	November 1, 1989 - October 31, 1990	\$50,000.00

Alzheimer's Disease and Related Disorders
Research Grant Recipients
1985 - 2016

39	Bradyphrenia and anosognosia in AD and multi-infarct dementia	William Jagust, M.D. and Bruce Reed, Ph.D.	University of California, Davis	November 1, 1989 - October 31, 1992	\$146,250.00
40	The Use of amyloid ligands for anti-A β oligomer therapies	Lee-Way Jin, M.D., Ph.D.	University of California, Davis	January 1, 2008 - December 31, 2009	\$156,100.00
41	Detection of genetic factors which modify the age of onset of AD	Kenneth Kosik, M.D.	University of California, Santa Barbara	July 1, 2013 - June 30, 2016	\$212,616.00
42	A search for a cell marker in Alzheimer's disease neurons	P. D. Kushner, Ph.D.	Pacific Presbyterian Medical Foundation	January 1, 1987 - December 31, 1988	\$80,000.00
43	Purification and characterization of the human neuronal Tor 23 antigen	P.D. Kushner, Ph.D.	Pacific Presbyterian Medical Foundation	January 1, 1990 - December 31, 1990	\$35,000.00
44	Investigations into the neurotrophic herpes simplex virus-type 1 as a cofactor in Alzheimer's disease	Frank M. LaFerla, Ph.D.	University of California, Irvine	January 1, 1999 - June 30, 2001	\$187,500.00
45	Imaging molecular structure and ligand-induced conformations of ion channels formed by amyloid beta protein in a physiological environment	Ratneshwar Lal, Ph.D.	University of California, Santa Barbara	October 1, 1995 - September 30, 1998	\$225,000.00
46	Multimodal imaging of real-time amyloid beta protein-neurotoxicity and underlying mechanisms in cells	Ratneshwar Lal, Ph.D.	University of California, Santa Barbara	January 1, 1999 - June 30, 2000	\$75,000.00
47	Amyloid beta protein ion-channel provides a direct mechanism for AD	Ratneshwar Lal, Ph.D.	University of California, Santa Barbara	July 1, 2004 - June 30, 2007	\$240,000.00
48	Cre recombinase-mediated targeted deletion of the NGF gene in adult mouse hippocampus	Kuo-Fen Lee, M.D.	The Salk Institute for Biological Studies	October 1, 1995 - September 30, 1998	\$225,000.00
49	Role of Cdk5 in Alzheimer's disease: Substrate specificity studies	John Lew, Ph.D.	University of California, Santa Barbara	January 1, 2002 - June 30, 2003	\$112,500.00
50	Development of a gene therapy approach to Alzheimer's Disease	Nigel T. Maidment, Ph.D. and Larry T. Feldman, Ph.D.	University of California, Los Angeles	October 1, 1995 - September 30, 1998	\$224,100.00
51	Role of amyloid precursor protein in the synaptic organization of the neocortex in transgenic mouse models	Eliezer Masliah, M.D.	University of California, San Diego	December 1, 1992 - November 30, 1994	\$142,500.00
52	Developmental biology of brain degeneration and dementia	M. P. McKinley, Ph.D.	University of California, San Francisco	January 1, 1987 - December 31, 1988	\$116,000.00
53	Ethocyte choline metabolism in Alzheimer's disease	Bruce L. Miller, M.D.	Harbor-UCLA Medical Center	January 1, 1987 - December 31, 1988	\$55,000.00
54	Choline, NMR spectroscopy and Alzheimer's disease	Bruce L. Miller, M.D.	Harbor-UCLA Medical Center	November 1, 1989 - October 31, 1992	\$118,400.00
55	California Research Consortium for the Study of Frontotemporal Dementia	Bruce L. Miller, M.D.	University of California, San Francisco	July 1, 2001 - June 30, 2004	\$450,000.00
56	Post-synaptic terminal -mRNA and protein expression in early AD	Carol Miller, M.D.	University of Southern California	July 1, 2004 - June 30, 2007	\$240,000.00
57	Producing CNS cell lines to study neurodegeneration in Alzheimer's	William C. Mobley, M.D., Ph.D.	University of California, San Francisco	October 1, 1995 - September 30, 1997	\$150,000.00
58	A mouse model for studying NGF-signaling defect in Alzheimer's Disease and Down Syndrome	William C. Mobley, M.D., Ph.D.	Stanford University	January 1, 1999 - December 2001	\$225,000.00
59	Genetic basis for failed NGF signaling in mouse models of Down syndrome	William C. Mobley, M.D., Ph.D.	Stanford University	July 1, 2004 - June 30, 2007	\$240,000.00
60	Progression of Alzheimer's disease: An epidemiologic pilot study	Deborah J. Moritz, Ph.D.	University of California, San Francisco	January 1, 1994 - December 31, 1994	\$65,000.00
61	Genome-wide expression analysis of Alzheimer's disease model transgenic mice after dietary manipulation	Greer Murphy, Jr., M.D., Ph.D.	Stanford University	July 1, 2004 - June 30, 2007	\$240,000.00
62	Membrane phospholipid profile of Alzheimer's brain	Tsutomu Nakada, M.D.	University of California, Davis	November 1, 1989 - October 31, 1992	\$147,400.00
63	Mitochondria fission in amyloid beta toxicity	Ken Nakamura, M.d., Ph.D.	The Gladstone Institute	July 1, 2013 - June 30, 2016	\$234,060.00
64	Role of amyloid protein precursor in AD neurodegeneration	Rachael Neve, Ph.D.	University of California, Irvine	November 1, 1989 - October 31, 1992	\$136,160.00
65	Alzheimer's disease and human brain capillary biochemistry	William M. Pardridge, M.D.	University of California, Los Angeles	June 1, 1985 - December 31, 2988	\$240,000.00
66	Metabolism of amyloid peptide precursor by cortical microvessels isolated from Alzheimer's disease brain	William M. Pardridge, M.D.	University of California, Los Angeles	November 1, 1989 - October 31, 1992	\$148,000.00
67	Molecular control of acetylcholinesterase gene transcription	Palmer W. Taylor, Ph.D.	University of California, San Diego	November 1, 1989 - October 31, 1992	\$139,720.00
68	Imaging Alzheimer's disease brain amyloid	William M. Pardridge, M.D.	University of California, Los Angeles	October 1, 1995 - September 30, 1996	\$75,000.00
69	Microangiopathy and Alzheimer's disease	Lynn S. Perlmutter, Ph.D.	University of Southern California	November 1, 1989 - October 31, 1992	\$147,400.00
70	The association between extrapyramidal and cognitive deficits in AD	Jane S. Paulsen, Ph.D.	University of California, San Diego	December 1, 1992 - November 30, 1993	\$53,000.00
71	Early SDAT: Predicting change and preventable complications	Robert I. Pfeffer, M.D.	University of California, Irvine	November 1, 1989 - October 31, 1992	\$147,700.00
72	Estrogen neuroprotection: Cellular, pathological, and behavioral correlates in AD and the canine model of age-related dementia	Christian J. Pike, Ph.D.	University of California, Irvine	January 1, 1999 - December 31, 2001	\$2,245,000.00
73	Molecular biology of brain degeneration and dementia	Stanley Prusiner, M.D.	University of California, San Francisco	June 1, 1985 - December 31, 1988	\$300,000.00
74	An in vitro model for the production of neurofibrillary tangles in cortical pyramidal cells	Charles E. Ribak, Ph.D.	University of California, Irvine	July 1, 2001 - June 30, 2002	\$73,175.00
75	Behavioral and biochemical correlates of presenilin-1 related AD	John M. Ringman, M.D.	University of California, Los Angeles	July 1, 2004 - June 30, 2007	\$240,000.00
76	Arterial spin labeling and resting state BOLD signal in persons at risk for familial Alzheimer's Disease	John M. Ringman, M.D.	University of California, Los Angeles	July 1, 2013 - June 30, 2016	\$233,060.00
77	Functional and anatomical imaging analysis of the primate central nervous system	Jeffrey A. Roberts, D.V.M.	University of California, Davis	December 1, 1992 - November 30, 1994	\$110,000.00
78	Spontaneous model of early amyloid plaque formation	Michael Russell, Ph.D.	University of California, Davis	October 1, 1995 - September 30, 1996	\$75,000.00
79	The visual system in Alzheimer's disease	Alfredo A. Sadun, M.D., Ph.D.	University of Southern California	January 1, 1987 - December 31, 1988	\$116,000.00
80	Protein phosphorylation in Alzheimer's fibroblasts	Tsunao Saitoh, Ph.D.	University of California, San Diego	January 1, 1987 - December 31, 1990	\$201,000.00
81	A Model for estrogen effects on memory loss	Barnett A. Schlinger, Ph.D.	University of California, Los Angeles	October 1, 1995 - September 30, 1997	\$145,000.00

Alzheimer's Disease and Related Disorders
Research Grant Recipients
1985 - 2016

82	Use of magnetic resonance imaging to measure regional cerebral flow: Comparison with SPECT measures	William Rodman Shankle, M.S., M.D.	University of California, Irvine	December 1, 1992 - November 30, 1993	\$69,350.00
83	Structure/function analysis of the nerve growth factor receptor	Eric M. Shooter, Ph.D.	Stanford University	December 1, 1990 - November 30, 1992	\$98,000.00
84	Nerve growth factor and neuronal survival	Eric M. Shooter, Ph.D.	Stanford University	December 1, 1992 - November 30, 1994	\$150,000.00
85	Understanding how nerve growth factor keeps nerve cells alive	Eric M. Shooter, Ph.D.	Stanford University	October 1, 1995 - September 30, 1997	\$150,000.00
86	Structural pathobiology and treatment of Alzheimer's disease	David B. Teplow, Ph.D.	University of California, Los Angeles	January 1, 2008 - December 31, 2011	\$240,000.00
87	Role of ERK in ApoE isotype-dependant neuroplasticity	Bruce Teter, Ph.D.	University of California, Los Angeles	July 1, 2004 - June 30, 2006	\$160,000.00
88	Amyloid gene expression in Alzheimer's disease	Jared R. Tinklenberg, M.D.	Stanford University	November 1, 1989 - October 31, 1990	\$50,000.00
89	In vitro model for AD: Metabolic studies of tau proteins	Paola S. Timiras, Ph.D.	University of California, Berkeley	January 1, 1987 - December 31, 1988	\$95,000.00
90	Cellular trafficking of B-amyloid precursor protein	Ian S. Trowbridge, Ph.D.	The Salk Institute for Biological Research	October 1, 1995 - September 30, 1997	\$125,404.00
91	Significance of a unique non-neuronal cell clustering in the brain in AD	Vijaya K. Vijayan, Ph.D.	University of California, Davis	October 1, 1989 - September 30, 1990	\$49,300.00
92	Cellular mechanisms controlling formation of neurofibrillary tangles	Philip R. Vulliet, Ph.D., D.V.M.	University of California, Davis	December 1, 1992 - November 30, 1994	\$142,500.00
93	Fibroblast growth factor as a new neurotrophic factor	P. A. Walicke, M.D., Ph.D.	University of California, San Diego	January 1, 1987 - December 31, 1988	\$110,000.00
94	Age-dependent synaptic targets of oxidative stress	Joseph B. Watson, Ph.D.	University of California, Los Angeles	July 1, 2001 - June 30, 2003	\$150,000.00
95	In vivo role of protease nexin-1 in Alzheimer's disease	Tony Wyss-Coray, Ph.D.	The J. David Gladstone Institutes	January 1, 1999 - December 2001	\$225,000.00
96	Role of molecular interaction between amyloid precursor protein (APP) and p53 regulation in neuronal apoptotic degeneration	Xiao Xu, M.D., Ph.D.	The J. David Gladstone Institutes	January 1, 1999 - June 30, 2001	\$150,000.00

	Biomarkers and Early Detection (including Diagnosis)	Principal Investigator	Organization	Period of Funding	Amount of Award
97	Novel reagents for Alzheimer's disease diagnostics	Gal Bitan, Ph.D.	University of California, Los Angeles	January 1, 2008 - December 31, 2011	\$240,000.00
98	Cognitive stress test for early detection of Alzheimer's disease	Susan Y. Bookheimer, Ph.D.	University of California, Los Angeles	October 1, 1995 - September 30, 1998	\$225,000.00
99	Development of a cross-cultural neuropsychological assessment battery for Alzheimer's Disease	Malcolm B. Dick, Ph.D.	University of California, Irvine	December 1, 1993 - November 30, 1995	\$120,000.00
100	Plaque and tangle imaging in MCI subtypes	Linda Marie Ercoli, Ph.D.	University of California, Los Angeles	January 1, 2008 - December 31, 2011	\$240,000.00
101	Alzheimer's disease: Development of diagnostic tests and therapeutic approaches	George G. Glenner, M.D.	University of California, San Diego	June 1 1985 - December 31, 1998	\$305,000.00
102	Brain imaging in at-risk individuals	William Jagust, M.D.	University of California, Davis	January 1, 1999 - December 31, 2001	\$225,000.00
103	Clinical fMRI for diagnosis and treatment of AD: Paradigms for bilingual and low education groups	Terry L. Jernigan, Ph.D.	Veterans' Medical Research Foundation San Diego Veterans Affairs Healthcare System	July 1, 2001 - June 30, 2004	\$225,000.00
104	California Non-Alzheimer's Disease Diagnostic Reliability Consortium	Julene K. Johnson, Ph.D.	University of California, San Francisco	July 1, 2004 - June 30, 2007	\$480,000.00
105	New diagnostic criterion for frontotemporal lobar degeneration	Joel Kramer, Psy.D.	University of California, San Francisco	January 1, 2008 - December 31, 2011	\$480,000.00
106	Diagnosis of Alzheimer's disease: Continuation of a follow-up study	Steven Matsuyama, Ph.D.	Western Geriatric Research Institute	June 1, 1985 - December 31, 1998	\$160,000.00
107	Positron emission tomography (PET) correlates of cognitive decline in Alzheimer's relatives	Steven S. Matsuyama, Ph.D.	Western Geriatric Research Institute	November 1, 1989 - October 31, 1992	\$147,700.00
108	Event-related potentials to predict AD dementia across ethnic groups in MCI	John M. Olichney, M.D.	University of California, Davis	January 1, 2008 - December 31, 2011	\$480,000.00
109	Positron emission tomography in people at risk for familial AD	Gary W. Small, M.D.	University of California, Los Angeles	November 1, 1989 - October 31, 1992	\$148,000.00
110	Amyloid beta protein precursor in CSF in AD: a potential marker	Leon J. Thal, M.D.	University of California, San Diego	November 1, 1989 - October 31, 1990	\$48,600.00
111	Detecting early signs of impaired driving skills in AD patients	Candace Wilkenson, Ph.D.	Southern California Research Institute	January 1, 1999 - June 30, 2000	\$70,000.00

	Drug Therapies (including other treatment)	Principal Investigator	Organization	Period of Funding	Amount of Award
112	Possible etiological (airborne aluminum) and therapeutic (intranasal NGF) strategies in AD	Loring Chapman, Ph.D.	University of California, Davis	November 1, 1989 - October 31, 1990	\$49,000.00
113	Evaluation of prospective memory training efficacy in individuals with mild Alzheimer's Disease	Jeffrey S. Kixmiller, Ph.D.	East Bay Institute for Research & Education	July 1, 2001 - June 30, 2003	\$149,950.00
114	Treatment of agitation in Alzheimer's disease: A comparison of haloperidol and trazodone	Michael E. Mahler, M.D.	University of California, Los Angeles	December 1, 1990 - May 31, 1992	\$28,400.00
115	Therapeutic effects of BDNF lentiviral gene delivery in the entorhinal cortex	Mark H. Tuszynski, Ph.D., M.D.	University of California, San Diego	July 1, 2004 - June 30, 2007	\$240,000.00

	Risk & Protective Factors (Including Preventative Measures)	Principal Investigator	Organization	Period of Funding	Amount of Award
116	Risk factors for development of Alzheimer's disease: A pilot study in recruitment of cognitively normal spouse controls from the California Alzheimer's Disease Diagnostic and Treatment Centers	J. Edward Jackson, M.D.	University of California, San Diego	January 1, 1991 - March 31, 1993	\$96,825.00
117	Vitamin B6, Alzheimer's disease, and cognitive function in older adults	Joshua W. Miller, Ph.D.	University of California, Davis	July 1, 2001 - June 30, 2003	\$115,410.00
118	An epidemiological study of risk factors for Alzheimer's disease	Catherine Schaefer, Ph.D.	Kaiser Foundation Research Institute	December 1, 1992 - November 30, 1994	\$142,500.00

Alzheimer's Disease and Related Disorders
Research Grant Recipients
1985 - 2016

119	Occupations with electromagnetic field exposure: A possible risk factor for Alzheimer's disease	Eugene Sobel, Ph.D.	University of Southern California	January 1, 1999 - June 30, 2000	\$74,250.00
